FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Transportation**, the **Department of Revenue**, **Office of the State Courts Administrator**, and the **Department of Public Safety - Highway Patrol** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **City of Kansas City** state the proposal would have a negative impact of approximately \$4,000,000 in fiscal year 2012 and perhaps more than that in late fiscal years. Kansas City states they have red light cameras at its most dangerous intersections. The \$4 million includes Kansas City's \$1.5 million annual cost for the cameras and \$2.5 million in fine revenue.

In response to a similar proposal from this year (SB 16), officials from **St. Louis County** assumed the proposal would not fiscally impact their agency.

Oversight assumes political subdivisions currently using automated photo red light enforcement systems could experience a loss in revenues from fines as a result of the proposal, as they would be prohibited from using such systems to enforce red light violations. Oversight assumes the losses to be Unknown.

Officials from **Columbia**, **St. Louis** and **Springfield** did not respond to **Oversight's** request for fiscal impact.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill prohibits any county, city, town, village, municipality, state agency, or other political subdivision that is authorized to issue traffic tickets from using an automated red light enforcement system as specified in the bill at any intersection within its jurisdiction. However, such a system may be used in a school, construction, or work zone.

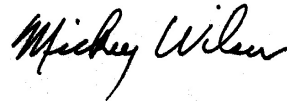

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
